The standardized Exam

To consolidate the outputs of colleges of medical group, it is decided to hold standardized exam at the end of academic year 2021/2022.

The Aim of the standardized exams:

- 1. To ensure that the graduates of the medical education possess the cognitive skills that enable them to perform the required tasks in medical institutions to serve the community by safe patients care practice.**
- 2. Assessing the learning progress in the medical colleges to ensure the required improvement for provision of the outputs with specialized scientific skills needed.**

The, Medical, Dentistry, Pharmaceutical and Nursing Colleges students are recruited to this standardized exam.

- 1. Exams are conducted online electronically in exam Halls with lab computers.**
- 2. The exam system was designed by specialized team so the question and answer bank is prepared by specialized professors team for each subject covered by the standardized exam.**
- 3. The two specialized subjects after first stage, 2nd, 3rd, 4th, 5th, 6th**
